GEORGIA
SENSORY
ASSISTANCE
PROJECT

Dear Parent Advisors,

The Georgia Sensory Assistance Project (GSAP) is a U.S. Department of Education, Office of Special Education Programs grant that provides technical assistance and training to families, teachers, and other service providers of children and youth with combined vision and hearing loss.

Thank you for taking the time to register children with combined vision and hearing loss on the GSAP census. Please be assured that for the purposes of the federal registry, each child is assigned a code so that names and personal information are kept strictly confidential.

To register a child, please do the following:

_____ Share the GSAP Combined Vision and Hearing Loss – Early Childhood document with the parent/guardian. (You may also wish to explore the GSAP website: <http://gsap.coe.uga.edu/>)

_____ Ask parent/guardian to sign the GSAP Release of Information form (You can either scan/email, FAX, or mail the release to me.)

_____ Review the GSAP Referral Information Birth to Three document to learn what information you will need to gather for the referral.

_____ Call me, and we will complete the registration over the phone.
OR you can email me with your phone number and preferred time, and I will call you.

Once I have added the child to the secure, online database, you will be given a user name and password to access the child's information and update it as necessary.

Please feel free to contact me with any questions or concerns.

Sincerely,

Carol Darrah, Early Childhood Coordinator
